

Public Health

Prevent. Promote. Protect.

WEDCO District Health Department

Serving Harrison, Nicholas, and Scott Counties.

WELCOME to WEDCO!

Our website, wedcohealth.org, is your gateway to one of the best health departments in Kentucky! I am thrilled to extend my warmest greetings as you explore our website to learn more about the programs and services available across our district.

At WEDCO, we take pride in our status as a nationally accredited health department, a testament to our commitment to excellence in public health. What truly sets us apart, however, is our exceptional team. It is our people who make us the best, embodying a dedication to service and a passion for public health that defines our agency.

As you navigate your personal needs to determine how we can serve you, I hope the servant heart work that we do is evident. Our team works diligently to create a fair and equitable experience for all across all the agency and communities that we serve. Equity and access to care are 2 of the highest priorities here at WEDCO—they guide our interactions, shape our strategies and underscore our collective mission to serve with integrity and empathy.

Our departments thrive on continuous improvement and growth. As a learning organization we believe that knowledge empowers us to serve at the highest level. We understand at the core that the public's health is our main priority, and we deliver this from a variety of angles.

Once again, welcome to wedcohealth.org. Together, we will continue to advance our programs in Clinical Services, Environmental Health, Community Health, Preparedness, and Administration, ensuring that every member of our community receives the highest standard of service and care.

With Grace & Grit,

Crystal Miller, Dr.PH
Public Health Director
